CERTIFICATIONS

Introduction to Front-End Development

Meta - Coursera

Programming with JavaScript

Meta - Coursera

React Basics

Meta - Coursera

PROFILE SUMMARY

Frontend developer focused on building clean, functional interfaces. Self-taught through Meta's Front-End Developer program on Coursera and hands-on projects. Seeking a frontend internship where I can contribute, learn, and grow as a developer.

PROJECTS

TaskFlow HTML CSS JavaScript Local Storage | [Live Demo ↗](#)

Task management app with full CRUD - create, edit, delete, and status tracking. Includes search, filter by priority or status, and sort. Counter updates live; all data persists via Local Storage.

Movie Explorer React React Router-TMDB API-CSS | [Live Demo ↗](#)

React app integrated with the TMDB API. Browse trending, popular, or top-rated movies, or search directly. Each movie opens a detail page with cast info, release date, overview, and a trailer button linking to YouTube.

ShopSee HTML CSS JavaScript Local Storage DummyJSON API | [Live Demo ↗](#)

E-commerce app with product browsing, search, filter, and sort. Cart supports quantity updates, item removal, and live total calculation. Data from DummyJSON API; cart state persists via Local Storage.

React Portfolio React CSS Lenis Lucide React | [Live Demo ↗](#)

React portfolio with a component-based structure, 3D animated elements, and smooth scrolling via Lenis. Clean, modern, and responsive UI.

EDUCATION

BA (Hons) English

2024–Present | Pursuing

School of Open Learning, University of Delhi
